Let us help create a home to love, a place to relax, a space to welcome family and friends.

STEP NO.01

We visit your home to discuss your requirements and learn how you live. Information including dimensions, aspect, architectural features and existing materials and finishes are all detailed and we take photographs for our reference.

OR

If it's easier for you, we can conduct our consultations remotely via email, FaceTime or Zoom. We use this opportunity to discuss your wish-list, your objectives and your vision and can follow up with phone calls as required.

STEP NO.02

We use a compilation of all the necessary details to prepare a proposal of different options detailing product suggestions and pricing. As a collaborative process, we encourage feedback and involvement, to ensure you are excited, positive and happy with the evolving plan.

STEP NO.03

We invite you to visit our showroom for an in-store presentation where we can discuss our plan in person, detailing layout and functionality. This visit also allows you the opportunity to touch and feel the product selections, envisaging how they will work within your own home.

STEP NO.04

At a pre-arranged time that is convenient to you, we deliver, install, assemble and remove any packaging waste or materials leaving you with a brand new space to enjoy.
